## iCraft® Deco Foil™ Transfer Gel - #4825

### Directions:

1. Tape stencil to paper and apply Deco Foil™ Stencil Gel across stencil using palette knife or similar tool. Remove excess gel by gently pulling knife flat across surface; return excess gel to jar.
2. Let gel dry 1 hour or until completely clear.
3. Cover stenciled design with Deco Foil™ Transfer Sheet, place inside folded piece of parchment paper and run through hot laminator. Let cool slightly.
4. Gently peel away transfer sheet to reveal foiled design.

Clean stencil immediately with cold water, a drop of dish soap and gentle finger scrubbing.
