

Pixie Spray™

Directions:

Always pre-test before use and protect your work surface.

1. Shake well. Hold can upright, 12 inches from stencil. Press nozzle and apply adhesive using a sweeping motion to lightly cover stencil.
2. Let dry 1 minute then press stencil to project. Reposition as needed.
3. Before storing, hold can upside down and press for a short burst to clear nozzle.
4. Clean up stencils with soap and water or alcohol-based hand sanitizer.

Tips:

- Spray on backside of stencil, not paper
- Don't spray close to stencil, we recommend 12" away
- Protect work surface and project from overspray
